SCHOOL TRANSPORTATION IMPORTANT MESSAGE TO PARENTS

Important Information

The CSF manages over 170 school transportation routes in the province, with transporters such as Lynch Bus Lines, First Student Canada, Standard Bus, A1, and Berry & Smith, who provide a safe and efficient service for students.

The annual registration allows transporters to plan the routes before the start of the school year. For the 2025-2026 school year, the registration period will run from **May 1 to July 15, 2025**.

Registration Process for School Transportation

For a student enrolled in the CSF to benefit from school transportation in 2025-2026, the parent/guardian must submit an online registration request between May 1 and July 15. The site will remain open until September 30.

However, any registration received after July 15 will be considered late, and the student's seat on the bus cannot be guaranteed for the start of the school year. **No revisions to the routes will be made before September 30.**

Online Registration & Other Forms

Registration must be completed online by the parent/guardian by clicking on the following link:
<https://transport.csf.bc.ca/>

It is important to note that the parent/guardian must fill out a registration form for each child.

The school transportation page on the CSF website also provides a wealth of useful information as well as other forms that may be necessary.

Bus Routes

In accordance with walking distance protocols, we inform you that transporters must adhere to and apply the walking distances defined in DA-1001. Some of them may need to make a stop up to the maximum walking distance. In such cases, students will need to get to the designated stop on their own.

Transporters will define bus routes during the summer based on registrations received between May 1 and July 15. Families who register before July 15, 2025, will receive details about the stop and pick-up and drop-off times the week before the start of the school year.

The CSF cannot guarantee a bus seat at the start of the school year for students who have not registered during the period of May 1st to July 15, 2025.
